

28 February 95.

Dear Lou,

Saw your interview the other day on TV with your FBI nemesis! Thought you were incredible! Bravo. Keep up the good work and hopefully one of these days you'll become famous as the person who ended Salem.

I am no longer associated with DIA and the other folks in Washington and am once again back to writing full time. Once I've finished my current manuscript in about two months, I'll be looking around for another great to chase. Maybe one day we should talk about chasing some together.

In the meanwhile, my congratulations

As always.
